4. The following is a statement of reasons for the indication of allowable subject matter:

The prior arts made available do not teach or fairly suggest, alone or in combination, a flow rate measuring device including a detector having two detection sections spaced at a predetermined distance from each other and measuring the height of liquid at that specific location, and a processing device connected to the detector to derive the cross-sectional area of the sections from the height of the fluid and determining the elapsed time for the selected section of the fluid to transverse the known distance for calculating the flow rate therefrom.

Conclusion

5. This application is in condition for allowance except for the following formal matters:

The issues regarding the election of species and restriction requirement, which requires the nonelected claims to be canceled.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
